Rękopis i jego oprawę wyrestaurował introligator Jan Wyżga w r. 1938. Grzbiet i część klapy są nowe; szycie na grzbiecie według pierwotnego. Dodano nowe karty ochronne (papierowe); stare karty ochronne (pergaminowe) wprawiono na początku rękopisu. Na końcu rękopisu wprawiono fragmenty, którymi były podklejone okładki i klapa; z nich fragment papierowy (4 kartki) jest ułomkiem brewiarza, pochodzi mianowicie z „psalterium" i zawiera modlitwy (psalmy) od nokturnu sobotniego do nieszporów poniedziałkowych.

fiat ad unam cuius pars vel consequentia mala non sit [illegible] evidens quia ista consequentia si forma sit et non forma artificialis non valet. Ad secundum dico quod si per formam artificialem intelligitur aliqua forma realis distincta ab omnibus rebus naturalibus tunc antecedens est falsum quia praeter formas [illegible] artificialis [illegible] si intelligitur per formam res naturales sic disposita per artificem sicut aedificium antecedens et tunc consequentia valet et sic patet primo [illegible] quia per formam domus id est per lapides et ligna taliter per artificem coniuncta consequitur domus et non per formas naturales. Ad quartum negatur consequentia. Ad probationem dico quod artifex [illegible] lectum vel domum non de novo producit [illegible] facit per actus aliqua alteratio sequitur actionem suam actio tamen sua non est frustra quia eius terminus est [illegible] ista componere res naturales et eas modo debito coadunare [illegible] nulla nova causatur [illegible] finis non fuit nisi finis aedificatoris est ponere lapides super se et ligna similiter et hoc sufficit ut actio eius non frustretur licet nihil de novo producat. Ad [illegible] dico [illegible] quod infertur [illegible] ulterius assumitur quod [illegible] non sunt res naturales dico quod sunt [illegible] res naturales sicut modo debito componere sed nunc sunt [illegible] et si quaeratur qualis sit ista [illegible] qualitas [illegible] et localis [illegible]. Ad [illegible] dico quod si consequentia [illegible] necessaria si autem [illegible] concedo [illegible] quod aliqua [illegible] distinguuntur. Ad [illegible] concedo [illegible] quod infertur [illegible] quod forma artificialis non [illegible] forma naturalis [illegible] quod forma artificialis non sit distincta [illegible] artificialis [illegible] quia forma artificialis vel [illegible] per artificem [illegible]. Ad [illegible] negatur [illegible] quod [illegible] artificialia non sunt [illegible] res naturales tamen non producunt res naturales non sic producunt res [illegible] naturales [illegible] producit [illegible] non producit [illegible] sit disposita vel sit [illegible] hoc per artificium [illegible] aedificium [illegible] productum [illegible]

patet per hoc. Unde ad primam rationem quod ista motus non mensurantur per se totaliter tamen tempore mensurantur quantum ad aliquas partes illorum. Ad argumentum quando sed bene possunt mensurari partes eius vel potest dici quod id secundum ipsum partes mensurantur sed non per eandem rationem quia non per quod totum sed per partes eius. Dicas ad motus est quia quando in tempore non mensuratur secundum ipso per totum sed per partes eius. Ad argumentum minus non mensuratur et unum est toto maiore sed minus tamen bene potest mensurari parte aliqua eius. Secundo quando quod nulla sit motus [illegible] quare sed non est motus quantum sit toto quia [illegible] Ad argumentum dicitur quod [illegible] vel per [illegible] notandum ut per [illegible] stellarum sicut corporis. Dicas quod non esset quale. Dico quod non est equale sed potest mensurari per simplicitatem temporis secundum cum potest fieri quantitas eius mensurari per dictis. Ad argumentum [illegible] in se [illegible] Dico quod non est quod sit [illegible] simpliciter quia non est quod [illegible] sit [illegible] simpliciter [illegible] ut patet [illegible] sed [illegible] notior quo ad mensuram. Dicas quando non est [illegible] Dico quod bene est [illegible] primo modo vel primo est [illegible] non est primus [illegible] simpliciter sed [illegible] motus magnus est dicas aliquis parte eius que est nobis notior quod [illegible] magnus motus per quantitatem eius [illegible] Dico quod [illegible] motus diurnus est nobis notior alius motibus per quantitatem eius [illegible] non est quod totus motus celi sit notior [illegible] sed [illegible] ut dicit est nobis notior duobus [illegible] et [illegible] mensurat [illegible] motus et dicas [illegible] et sic de aliis [illegible]

sunt et calidus non fecerunt ignem cum ex-
tinguitur in aqua fervente et tamen non
acquirit aliquam qualitatem quia non acquirit caliditatem
quia caliditas sua diminuitur sed corrumpitur nec
acquirit frigiditatem quia aqua fervens non
causat frigiditatem in se quod vel alteratio fer-
vi non sit motus ad qualitatem
est articulus tertius
circa primum dicendum

Quantum ad hoc primum videndum sunt quedam di-
stinctiones communia scilicet in qua primo distinguitur
titulus questionis quia motum esse ad qualitatem
potest intelligi dupliciter uno modo quod motus sit
ad qualitatem generandam et isto modo est
propositum questionis alio modo quod motus sit ad
qualitatem corrumpendam et isto modo scilicet tamen
est quia sic non dicitur quod motus sit ad
id quod corrumpitur per talem motum sed non dicitur
de albatione est ad albedinem et de nigratione
ad dealbationem in substantia ad eandem
formam corrumpendam et ideo aliter dicit quod pre-
cursus non licet quod nobis desinant ad
experimentum eorum secunda alterationis vel distinctio
secundo scilicet quod dicitur motus quod quali-
tates sunt perdurantes et quedam subalternes
cuius alteratio contraria de [illegible] ut cum ignis
extinguitur per aquam ignis aut ignis
generans et motus principales sunt gene-
rantes et alterantes contrarie per diminutionem et
motus subalternes quia cuius alteratio contraria de
[illegible] vel tertia distinctio scilicet quod dicitur
[illegible] vel corruptio [illegible] vel [illegible] [illegible]
[illegible] non ista quod sit ab agente cuius
[illegible] cum [illegible] sed quando ignis generatur
et aer aerem et sic de similibus [illegible]
non ista quando generans et generatum [illegible]
ista communia secundo quoad questionem scilicet quod non
omnis alteratio est ad qualitatem simpliciter loquendo quia
quando aer illuminatus obscuratur tamen per
substractionem luminis est alteratio quia [illegible]
tamen ista communis non alterationis sed de
se potest et non acquirit aliquam qualitatem de
novo per talem substractionem luminis in
est alteratio quia aer alteratur non est
ad qualitatem simpliciter loquendo et si dicatur quod
sicut [illegible] luminis causat calorem ita sub-
tractio causat frigiditatem et primus aer sic
acquirit aliquam qualitatem per talem obscurationem

sed non est verum [illegible] ad propositum [illegible] quia obscuratio
vel in esse per alterans et non potest sed quia loquitur
in modo est ad aliud secundo quia posito quod medium
illuminatum per actionem luminis non causat calorem
sed per lumen frigidum puta et per lumen candele
[illegible] [illegible] distantie a candela quia quamvis candela
causat calorem tamen non ad tantam distantiam
ad quantam causat lumen ut experimento patet et similiter
dicatur quod per substractionem luminis causatur obscuritas
quod dicitur una qualitas id est ad hanc non conve-
niunt quia obscuritas non est aliud quam medium carens
lumine vel non habens lumen sicut non potest dici
cum tamen obscuritas sit obscuritas sicut sub
qua res quia sol vel candela vel aliud lumen
sit aliud non potest causare obscuritatem valde
per actionem ut loquitur Aristoteles secundo de anima et circa
gubernationem naturae et cum salute per sua
[illegible] et cum [illegible] per sua absentia
[illegible] et valde per actionem quo modo [illegible]
[illegible] sicut non in corruptio vel rarefactio
et ad aliquam qualitatem quod de novo acquiritur et tamen
est corruptio vel rarefactio et alteratio quia per
talem motum sit nova denominatio qualitativa
[illegible] non omnis alteratio et motus ad qualitatem sed
[illegible] in uno oppositorum ab aliquo non tamen con-
cedendum extrema ut [illegible] quia corruptio et rarefactio
simpliciter loquendo non sunt alterationes sed motus locales
[illegible] motus localis non est per se ad qualitatem et ideo
[illegible] [illegible] [illegible] [illegible] quod ad id quod sunt [illegible] iste
qualitates non est motus sicut rarefactio et condensatio
sunt alterationes et non sunt ad aliquas qualitates quas

ad primum dicitur omnes mutationes habent terminos veros et si sit simul mutatio sed sunt successiva non habent terminos per se collatam tantum habet tamen habere voce sicut puncti quando dicitur motus dicit habere terminos partes secundo et ideo licet in nullo motu locali possit assignari aliquod extrinsecum quod ab ea tamen est assignare terminum intrinsecum puta extrema fluxus et istud est nota in aliis modis formas vel alie voces procedunt viis suis dictivis et alius quod motus localis est quando non est localis et sic patet quod quo

Ueritur consequentia

Utrum ista sit concedenda punctum est et arguitur primo quod non quia punctum nichil aliud est a linea et tamen punctum non est linea igitur nichil est de questionibus precedentibus secundo quod sicut se habet nunc ad tempus ita punctus ad lineam ex sexto physicorum sed nunc non est tempus igitur et cetera secundo quod sed nunc non est tempus et tamen in nunc nichil movetur ut patet sexto physicorum vel 2° punctum nichil aliud est a corpore et punctum non est corpus igitur ipsum nichil est assumptum probatur dicendo primo quod punctum nichil est aliud a linea et superficies a corpore et linea a superficie igitur punctum nichil aliud est a corpore secundo quod omne corpus est simpliciter divisibile ex primo celi et punctum est omnino indivisibile ex quinto metaphysice modo omnino indivisibile est simpliciter indivisibile vel 3°. superficies nichil est igitur punctum nichil est consequentia tenet magis. maior videtur superficies esse quam punctum ideo si non est nec punctum minor quia superficies nichil aliud est a corpore et tamen non est corpus igitur nichil

est locus quia locus est superficies corporis continentis ut patet quarto physicorum et tamen locus non est corpus ut patet ibidem

Oppositum arguitur

quia ista consequentia concedatur punctum est in linea quia sicut punctum se habet ad lineam ita nunc ad tempus et ex quarto physicorum probatur quod in omni tempore est nunc in re sed et punctum est in linea igitur punctum est primus consequentia probatur per unum locum a ad proportionale de est tertio ad inferiorem secundo sic dicendo ad invicem et patet probatur quia primo dicit ...... non est ...... supponentes cod et si ista est vera punctum est in linea et quod supponit per ens et si supponit per ens tunc sequitur est vera punctum est et ideo probatur quod in tertio in modo ad suum propositum vel de aliis sic punctum est indivisibile in puncto est et ideo patet per euclidem et cetera in mathematice consequentia patet per rationes principales de aliis sic nunc est in punctum est et ideo patet per aliud argumentum de tempore nichil est non nunc consequentia patet possibile non. n. tamen sit dicta de uno quam de alio vel primo si nichil esset sequitur quod aliquis motus fuit quod nunc est vel fuit nunquam incepit consequens falsum ut patet de se quia quidquid ~~non est~~ post non esse habet esse hoc videtur maxime et absurdum esset dicere quod ergo non incepit primo consequentia quia motus in non tempore incepit in nunc incepit si nunc nichil sit quia nichil esset dicere incepit in non ... quia motus in non tempore incepit et supponitur consequentia per primum in sexto physicorum vera et quod oportet quod non primo movebatur vel alia et de quiete eodem modo quiescat ad quiescat ipsum quiescit primo hoc est verum propter distinctionem temporis an infinitum ut supra idem vel unum corpus infinito consequentes istas quiescit aliquid modo ipsum movebitur verius et quiescit ad quiescat ipsum quiesceat postquam ista patet per dicendum tempus quod sed supra dicit quod est divisibile in infinitum sit supra post vel 2° suppositio quod aut

aliquis non incipit esse quando est verum dicere quod
primo erit ista patet ex significatione nominis
incipit per illam vocem aliquis non incipit moveri
quando verum est primo movebitur ex hoc conditur
quod in nullo tempore in quo res movetur ipsa incipit
moveri quia in omni tempore in quo movetur verum est
dicere primo movebatur sed quando verum est dicere
quod primo movebatur tunc non incipit moveri
ut apparet ex eius nominis in in nullo tempore in quo movetur
incipit moveri Si dicas quod incipit moveri in tempore
praecedenti hoc non incipit moveri in tempore in quo
movetur Contra hoc arguitur quia in omni tempore quiete
verum erat dicere quod postquam quiescit ista propositio
ex dictis convenit quod quiescit postquam quiescit
quia tunc dant sunt quando aliquis quiescit
tempus postquam quiescit in sequitur quod in nullo tempore
quiete praecedentis non desinebat quiescere
sed absurdum est dicere quod aliquis incipit
moveri antequam desinebat quiescere quiete
temporis praecedentis quia in ponitur si aliquis est
moveri Vero etiam expositio huius nominis
punctum vel hoc nomen punctum in sua voce
includit negationem seu significatio dicitur hoc
per ex difficile dicere quod hoc nomen in
divisibile significat carentiam divisibilitatis et non punctum
est in significatione Verum non negatio in eius
sit in nomine significato dicitur negatione simpliciter
et hoc quod ipsa connotat subiectum negationis
dicitur simpliciter nullum subiectum supponit
ut patet in exemplo de isto termino significatione caecus
caecitas quod non significat simpliciter negationem visus
sed tunc omnino privatio dico certa que
non habet visum sed significat carentiam visus in illa
re quae in illo nata est significat sic carentiam visus
sic hoc nomen punctum significat carentiam divisibilitatis et sub
stantia connotat magnitudinem et non significat in magnitudine non
sic cum non dicendum vero in natura in tempore sit
subiectum connotat tunc non significat in tempore non
divisibile sed carentiam divisibilitatis Verum non dimissum sit
in loquendo de nominibus significatis abstractis verum iste
caecitas et iste punctus sed ponit quod eius
concreta significat et abstracta sit in concreto et non
de quo verum est et similiter sic dicitur quod est
verum oculus et caecus sic et verum est dicere oculus est
caecitas Aliud dicitur quod eius sua vis zacetus
tamen verum affirmative de abstracto sed non de
eo abstractus non verum affirmative de suo subiecto

patet in primo quod ista est falsa oculus est caecitas
non dicit Aristoteles de post praedicamentis non est in sensu et
privatio eorum et est caecitas quod sit tunc idem
tunc de quantitate vi primo de isto visu utrumque
sed hoc est sic et caecitas sed est caecitas non
sed caecitas sed quando non loquendum tamen
veritatem addidit quod et est ex tunc ita non est

expositione tamen quod sit ad placitum eius voluit
et quod dicit dico sed talem modum loquendi Primo
dico sic tenemus quod id est tamen caecum et caecitas sunt
dico sic teneatur quod ista de caecus ista

caecitas sic exponitur modo dico quod in tamen caecus
significat id quod in oculus in quo non est visus et
non sit est verum dicitur oculus in quo non est visus verum
non sit est verum dicere caecitas
et dicere caecum et et prius verum est dicere caecitas
et sic istum modum loquendi dico quod iste
et sed istum modum significat quod ista oratio magnitudo in
qua non est divisibilitas quod et carentia divisibilitatis et hoc
magnitudine subiecto et non sit in exemplo et
ipso est una magnitudo in qua non est divisibilitas est
sit tamen una punctum et sic non est una sed ista
non est una magnitudo in qua non est divisibilitas et est
falsa et in punctum est Vero primo dico et
sed sit differentia primo nominis punctum et ista
et est quod non in magnitudine quia ratio ad istam
punctum est in magnitudine et in oculo ista de expositione propositionis
caecitas et tamen oculus sit propter hoc quod iste de caecitas connotat
copulatur sed sic quod ista tamen caecitas connotat
sententiam oculi sed prius est expositio oculus et et ideo
non est visus et et sic dico quod ista propositio
non est visus ista et dico quod in copulatur
et est magnitudine de expositione propositionis copulatur
magnitudo et aliqua non est divisibilitas et ista est
falsa in punctum est in magnitudine Vero secundo sit
ista est secunda punctum est indivisibile magnitudinis
immediatis addimus quod exponitur sic
immediatis addimus quia exponitur sic
magnitudo et terminus eius propositio non est divisibilitas
et ista est quia in prius magnitudinis non est
divisibilis et magnitudo est et locus est punctus
divisibilis et magnitudo et sic dico quod adsit hic propositionis praedicatum
determinatur et dico quod ad istam secundam propositionem praedicamentis
iste propositio punctum est in magnitudine punctum est
in alia tamen quod non sit sed per sic significationis
si quod in tamen ista est secunda est una Vero est secunda
et una ultima aliqua extremitas magnitudinis est
punctum et et eius quasi quia vero tamen copulatur
magnitudo et aliqua extremitas eius exceptio non
non est divisibilitas et sic est una ut patet secunda propositio
quia ad punctum tamen quia ista secunda non est
sed in magnitudine ista sit et non est et verum

ratione alterationis est simul cum alterato scilicet calefactionis calefaciens est simul cum calefacto, item odoratus est simul
cum odorante vel etiam unum alia quo consequitur
per media alterationis nunc et medie alterata al-
terantur partes. Ad secundum alterans et motum non
est simul cum moto quia extremum alterati [illegible]
est simul et non est in medio unus [illegible] quia
in motu augmentationis augmentans est simul
cum eo quod movetur quia eius augmentatio vel est per
aliud vel per accumulationem vel per attractionem. Sed
motus est simul ex hoc scilicet quia in [illegible]
[illegible] est simul cum eo quod diminuitur ex quibus in se
corporis primum est quod ultimo loco movetur et non
[illegible] fit simul quod quiescat fit simul per actionem
movendi fit simul quod movens et motum fit
[illegible] quod moveatur et movens
unus est alius [illegible] secundum corruptionem et non
est ultimum quod movens et motum sit simul
ponitur quod tamen movetur in corpore et non
tamen fit simul ponitur et non movetur corrum-
pitur quod movens in corpore est in eodem loco cum
moto. Tertium contra et non est ultimum unum
quod movens et motum sit simul propter primum [illegible] me-
dium [illegible] de movens in medio agit
per contactum ultimi motus. Contra dicta secundo
dubitatur de variatione occulti advenientem
interfectore in non movet movens et simul
cum moto. Dicendum quod quando interfe-
ctor est primus tunc iste motus cruc-
tationis fit [illegible] quod in interfectore
magna fortitudo de interfectore quia [illegible]

in corde et ille [illegible] sit calidum quod motu
alterante [illegible] et sic corpus interfecti alteratur
et sic in sanguine [illegible] fit quod
interfecto [illegible] quando [illegible] primo
interfectore [illegible] hoc [illegible] Dicendum
non et tunc deus [illegible] movens [illegible]
dubitatur de mulieris variatione quod [illegible]
camelum ad foveam in motor non est simul
cum moto. Dicendum quod mulier variando
[illegible] corpus morbidum et [illegible]
[illegible] et variando [illegible]
in corde et dum motu fuerit amor [illegible]
[illegible] et illa alteratio tunc ducitur ad
[illegible] homines [illegible] camelus et dicit
[illegible] et [illegible] sicut in [illegible]
de oculi [illegible] unde

sepe [illegible] sicut [illegible] [illegible] in animis o[illegible]
[illegible] venenum [illegible] pro certo
[illegible] dicens tamen [illegible] istam
[illegible] quod movens fit simul cum moto. Dicendum quod
fuit [illegible] opinio [illegible] de ymaginatione quia
ymaginatio unius hominis movetur [illegible] homines per
plura loca et movens non est simul cum moto.
Dicendum quod ymaginatio [illegible] [illegible] corpus
quia [illegible] [illegible] sicut ad ymaginationem
[illegible] hominis et non ymaginatio [illegible] aliquid
alterat [illegible] ymaginationes et tunc
[illegible] moveret [illegible] plures [illegible]
[illegible] ad magis distantem [illegible] movere
[illegible] ex domo sua sub certa constellatione
et hoc [illegible] fit [illegible] [illegible]
quod regina ymaginatio forti [illegible]
[illegible] [illegible] ex [illegible]
ymaginationem [illegible] ad [illegible]
[illegible] et hoc fuit [illegible] de [illegible]
[illegible] ad [illegible] quia [illegible] ex duabus
quod [illegible] agit in extremum [illegible]
medio. [illegible] dico [illegible] possit
agere in extremum modo [illegible] et non modo me-
dium [illegible] ad [illegible] quod in motum
localem [illegible] agit in extremum [illegible] moveat me-
dium [illegible] ut si [illegible]

agit in medium [illegible] lucem quod autem sol
moveat [illegible] per [illegible]
quod [illegible] [illegible] [illegible]
in [illegible] celi quia [illegible] [illegible]

eo quod aqua [illegible] [illegible] sol autem vel
alius planeta [illegible] quo [illegible] celum agit
[illegible] ex hoc solum [illegible] quod [illegible] fieri
sol agit in extremum elevando vel
[illegible] et tamen non agit in medium
quia sol non elevat [illegible] et hoc [illegible]
[illegible] fieri [illegible] localem [illegible]
[illegible] quod [illegible] agens in extremum [illegible] agit per
medium et hoc [illegible] per diffusionem medium [illegible]
[illegible] in [illegible] [illegible] sed de
motu alterationis [illegible] agens
in extremum [illegible] agat per medium et in dico
quod non [illegible] medium movetur [illegible] motu
quo extremum non [illegible] quod non [illegible]
[illegible] manum piscatoris sed non

vincit vere sed tamen motor a quo motum sit tunc
dicitur verum. Hoc fit manifestum quia si aer alterat extremum
virtute agentis in medium et quandoque alterat et videtur quod non
capiat virtus ignis primi et virtus magnetis et
magnetis ponatur versus primum et ponatur aqua et
quia que corrumperet istum primum ignem si non sit
magnitudo tunc ignis magnus agit in aquam et non
agit in ignem medium quod patet per fortiores sole
agit quam aer et tamen non agit in ipsum calefaciendo
vel illuminando sicut sol agit in aerem qui est superius
lumine et calefaciendo et tamen media regio aeris
nec calefit nec illuminatur. Ad secundum hoc dicitur
si non agit per medium falsum a quo motum tunc
agens potest agere per infinitam distantiam quod est impossibile
sic tunc in vacuo cum potest agere
et sic [illegible] dicitur quod medium non requiritur
quia passum sicut tunc agens potest agere per medium
contiguum distans et sic dicitur quod [illegible]
quod non agit in medium patet quod dicitur quod per distantias
non medium fit aptum natum immutari ab
agente tunc fit per medium fieri actio sic quod
medium immutatur. Ad 3 quia oppositum patet de
igne patet dicitur quod [illegible] duo ignes sunt
virtus ignis in tali actione quia agitur et agit sicut patet
dicitur quod [illegible] medium non est aptum [illegible]
ex alio extremo sed quod [illegible] per pleas sensibus
[illegible] quod [illegible] agit [illegible] agit
in patere [illegible] agendi [illegible]
[illegible] 12 signa [illegible] 12 [illegible]
a quo [illegible] dicitur sicut quod dicitur quod sol non agit
in medium [illegible] primo [illegible]
et calefacit sed quod in non est [illegible] radiorum [illegible]
[illegible] et obscuratis

Dico quod [illegible] orbis non est movens [illegible]

ex actibus frequentibus generatur habitus i. propter hoc iterum
quod actus virtuosi sunt diversi quod patet
[illegible] et sunt quidam sunt difficiles alii sunt
[illegible] et sunt faciles quod habitus facilitat
potentiam operantem. Item non sed agens naturale
agit determinate sed agens voluntarium in quantum
est in hoc est diversum agentis naturalis et voluntarii
verum quod quando agens naturale est productum tunc
est ipsum determinatum est ad operationem unam sed
agens movens semper [illegible] in agente voluntario
producto quod liberum est et potentia [illegible] quod
inclinetur et determinetur ad operationes determinatas
ut ad agendum sic et non aliter. Ex hoc habitus
necessarie [illegible]. Conclusio prima sic: ista necessitas
est ponere habitum moralem supposito quod aliqua
agens debeat moraliter agere. Nam quod agens
in diversa et alterutrum determinatum sicut est [illegible]
[illegible] ad [illegible] est necessaria
sub libertate [illegible]. Item videmus quod unus
[illegible] facilius bene operatur alius. Hoc non est
ponere ad facilitatem et hoc est habitus. 2a
Conclusio est habitus moralis non est in nobis a natura
quod si esset habitus esset naturalis et non moralis.
Item tunc [illegible] difficulter nobis in
[illegible] per [illegible] magis [illegible] ad ma-
lum quod ad bonum [illegible] deesse. 3a conclusio:
[illegible] habitus moralis non fit a natura [illegible]
naturali [illegible] et magis disponitur ad [illegible]
moralem [illegible] quod ad alterum quam unus [illegible]
[illegible] et [illegible] inclinat ad liberalitatem. 4a conclusio quod omnis
habitus moralis [illegible] ex actibus quia omnis po-
tentia [illegible] ex [illegible] habitus
moralis [illegible] universaliter
[illegible] sic non [illegible] habitus moralis
[illegible] habitus [illegible] ille [illegible]

[illegible] in [illegible] actus sunt virtuosi et vitiosi et [illegible]

[illegible] conclusio et [illegible] quod [illegible] actu in
[illegible] moralibus [illegible] non est virtuosus nec
vitiosus [illegible] actu [illegible] non sit [illegible]

quod aliquis sit iustus [illegible] facere et tamen non
est iustus quia [illegible] quod non faciat ea

ponere morti pro re publica et ponatur quod

patet per rationem quia prius quam voluntas antiqua procedens et immutabilis non potest immediate producere effectus novos et propter hoc potest concludi quod non sit possibile motum incepisse postquam non fuit motus. ¶ Ad primam quidem rationem dicendum est ... quod deus nunquam potuit producere motum sive mundum cum tamen non fuisset motus vel mundus. Dicendum ad hoc quod dictum potest ... ex duabus ... [illegible] ... supponendo quod deus est omnino immutabilis et hoc dicit ... in quo ... et hoc ... et veritas. Et ex hoc sequitur quod deus non ... actione ... vel volendi quod tamen non fuit nec habere potest ... illud ... et ... ¶ 2° supponit quod deus agit ... et voluntate hoc et omnes ... sicut si deus de novo egit mundum vel motum postquam tamen non erat vel ab aeterno voluit agere mundum vel motum vel non. Si non voluit agere mundum ab aeterno et tamen quando egit voluit sequitur quod mutatus est in sua voluntate quia tunc habet actum volendi quod tamen non habuit. Quod si voluit vel cum hoc ab aeterno potuit vel non. Si non hoc est absurdum quod tanta potentia haberet ab aeterno quantam nunc. Si ab aeterno potuit sequitur quod fecit ... potentia ...

¶ Ad illa ... dicit quidam quod non ... quod deus voluit non ... quod tamen non ... quod voluntas eius sit ... hoc quod voluntas ... bonum et ... ponimus quod ... ac bonum ... voluntas ... et ... in illo actu ... malum ... sicut ... diligebat nec ... voluntas ... nec ... in proposito. ¶ Ista ... non ... sufficiens quia ... si volo quod tamen volui ... quod ... fuit ... mutatio ... quod ... non fuit ... in ... proposito non potest hoc ... quia in quantum ... nulla ... praecedebat ... in isto proposito non potest dici quod deus ... voluit et non ... et ... fuit mutatio ... facere alium ... dicunt ... quod deus voluit facere mundum ... et ... voluit ... deus non voluit ... facere mundum ... quod ... dicunt

Et dedit eis petitionem ipsorum et misit saturitatem in animas eorum. Et irritaverunt moysen in castris aaron sanctum domini. Aperta est terra et deglutivit dathan et operuit super congregationem abyron. Et exarsit ignis in synagoga eorum flamma combussit peccatores. Et fecerunt vitulum in oreb et adoraverunt sculptile. Et mutaverunt gloriam suam in similitudinem vituli comedentis fenum. Obliti sunt deum qui salvavit eos qui fecit magnalia in egipto mirabilia in terra cham terribilia in mari rubro. Et dixit ut disperderet eos si non moyses electus eius stetisset in confractione in conspectu eius. Ut averteret iram eius ne disperderet eos et pro nichilo habuerunt terram desiderabilem. Non crediderunt verbo eius et murmuraverunt in tabernaculis suis non exaudierunt vocem domini. Et elevavit manum suam super eos ut prosterneret eos in deserto. Et ut deiceret semen eorum in nationibus et dispergeret eos in regionibus. Et initiati sunt beelphegor et comederunt sacrificia mortuorum. Et irritaverunt eum in adinventionibus suis et multiplicata est in eis ruina. Et stetit phinees et placavit et cessavit quassatio. Et reputatum est ei ad iusticiam in generationem ...

Et effuderunt sanguinem innocentem sanguinem filiorum suorum et filiarum suarum quas sacrificaverunt sculptilibus chanaan. Et infecta est terra in sanguinibus et contaminata est in operibus eorum et fornicati sunt in adinventionibus suis. Et iratus est furore dominus in populum suum et abominatus est hereditatem suam. Et tradidit eos in manus gentium et dominati sunt eorum qui oderunt eos. Et tribulaverunt eos inimici eorum et humiliati sunt sub manibus eorum sepe liberavit eos. Ipsi autem exacerbaverunt eum in consilio suo et humiliati sunt in iniquitatibus suis. Et vidit cum tribularentur et audivit orationem eorum. Et memor fuit testamenti sui et penituit eum secundum multitudinem misericordie sue. Et dedit eos in misericordias in conspectu ...

Confitemini domino quoniam bonus quoniam in seculum misericordia eius. Dicant qui redempti sunt a domino quos redemit de manu inimici et de regionibus congregavit eos. A solis ortu et occasu ab aquilone et mari. Erraverunt in solitudine in inaquoso viam civitatis habitaculi non invenerunt. Esurientes et sitientes anima eorum in ipsis defecit. Et clamaverunt ad dominum cum tribularentur et de necessitatibus eorum eripuit eos. Et deduxit eos in viam rectam ut irent in civitatem habitationis. Confiteantur domino misericordie eius et mirabilia eius filiis hominum. Quia satiavit animam inanem et animam esurientem satiavit bonis. Sedentes in tenebris et umbra mortis vinctos in mendicitate et ferro. Quia exacerbaverunt eloquia dei et consilium altissimi irritaverunt. Et humiliatum est in laboribus cor eorum infirmati sunt nec fuit qui adiuvaret.

Et clamaverunt ad dominum cum tribularentur et de necessitatibus eorum liberavit eos. Et eduxit eos de tenebris et umbra mortis et vincula eorum dirupit. Confiteantur domino misericordie eius et mirabilia eius filiis hominum. Quia contrivit portas ereas et vectes ferreos confregit. Suscepit eos de via iniquitatis eorum propter iniusticias enim suas humiliati sunt. Omnem escam abhominata est anima eorum et appropinquaverunt usque ad portas mortis. Et clamaverunt ad dominum cum tribularentur et de necessitatibus eorum liberavit eos. Misit verbum suum et sanavit eos et eripuit eos de interitionibus eorum. Confiteantur domino misericordie eius et mirabilia eius filiis hominum. Et sacrificent sacrificium laudis et annuntient opera eius in exultatione. Qui descendunt mare in navibus facientes operationem in aquis multis. Ipsi viderunt opera domini et mirabilia eius in profundo. Dixit et stetit spiritus procelle et exaltati sunt fluctus eius. Ascendunt usque ad celos et descendunt usque ad abyssos anima eorum in malis tabescebat.

Deus laudem meam ne tacueris quia os peccatoris et dolosi super me apertum est. Locuti sunt [adversum] me lingua dolosa [et ser]monibus odii circumdederunt me et expugnaverunt me gratis. Pro eo ut me diligerent detrahebant mihi ego autem orabam. Et posuerunt adversum me mala pro bonis et odium pro dilectione mea. Constitue super eum peccatorem et diabolus stet a dextris eius. Et dilexit maledictionem et veniet ei et noluit [benedictionem] et elongabitur ab eo. Et induit maledictionem sicut vestimentum et intravit sicut aqua in interiora eius et sicut oleum in ossibus eius. Fiat ei sicut vestimentum quo operitur et sicut zona qua semper precingitur. Hoc opus eorum qui detrahunt mihi apud Dominum et qui loquuntur mala adversus animam meam. Et tu Domine Domine fac mecum propter nomen tuum quia suavis est misericordia tua. Libera me quia egenus et pauper ego sum et cor meum conturbatum est intra me. Sicut umbra cum declinat ablatus sum et excussus sum sicut locusta. Genua mea infirmata sunt a ieiunio et caro mea immutata est propter oleum. Et ego factus sum opprobrium illis viderunt me et moverunt capita sua.
